

THE Gleichen Call

Thirteenth Year, No. 29

GLEICHEN, ALBERTA, WEDNESDAY, OCTOBER 8, 1919

Subscription \$1.50 a Year

The Expenditure of \$610,000,000

How the last Victory Loan was spent

For Demobilization

For Trade Extension

BEFORE buying Victory Bonds again you may want to know how Canada used the money you loaned her last year

Canada borrowed the money to carry on the war and to provide credits for Great Britain and our Allies

CONSIDERABLY more than one-half of the Victory Loan 1918 was spent on our soldiers. This included \$312,900,000 for paying them feeding them bringing them home separation allowances to their dependents maintenance of medical services and vocational training schools

\$59,000,000 of the Victory Loan 1918 was paid on account of authorized Soldiers gratuities

\$9,000,000 was spent at Halifax for relief and reconstruction after the disaster

Other disbursements were not strictly speaking expenditures but National Re-investments

To Great Britain for example.

\$173,500,000 was loaned for the purchase of our wheat and cereals

\$9,000,000 for our fish

\$30,000,000 for other Foodstuffs

\$2,900,000 for Canadian built ships

\$5,500,000 to pay other British obligations in Canada.

Making in all \$220,900,000 advanced to Great Britain

To our Allies, we loaned \$8,200,000 for the purchase of Canadian foodstuffs raw material and manufactured products

The Re-investments will be paid back to Canada in due time with interest

These credits were absolutely necessary to secure the orders for Canada because cash purchases were impossible

They have had the effect of tremendously helping agricultural and industrial workers to tide over the depression that would have followed the Armistice, had we not made these credit loans

As far as, money is concerned 1919 has been, and is still—just as much a war year as 1918. Our main expenditures for war cannot be completed until well on into 1920. Thus another Victory Loan is necessary—Get ready to buy.

Victory Loan 1919

"Every Dollar Spent in Canada"

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

When the farmer of the west—or any part of Canada for that matter—invests his money in Victory Bonds he does himself two good turns. He gets two birds with the one shot. He assists the country in making a profitable market for his grain and other products, so that he can make more money. He puts his spare cash into the soundest security in the world, and that brings him five and a half per cent. Previous issues have also proven that the bonds have quick mar-

ketability above par.

Two dollar wheat, or rather \$21½ wheat, is a glorious fact for the western farmer simply because the Dominion of Canada has been able to dispose of it to needy buyers who had not the cash to pay. The Victory Loans provided the cash, which has gone out in the form of credit advances to Great Britain and other countries.

The United States has had to finance the sale of American wheat abroad in

exactly the same way by loaning the money to the countries buying. It is hardly reasonable to suppose that the American Government, deeply engaged in its own business, would be eager to provide foreign credits for our farmers here. So it is simply up to our farmers to help themselves.

In buying all the Victory Bonds that serve in a very profitable investment and to a good market for their products.

"If through inability," said Sir Thomas White, "we said we would borrow any more money to make advances to Great Britain, it would mean that the grain raised on Canadian farms would remain here and would never get into the elevators and be sold in the markets of the world, and there would be a panic all through the west and throughout the country." Plain speaking, that; but the situation is one that demands plain speaking. The farmers and merchants of

the west must make success in the forthcoming Victory Loan a certainty. They can do it. It is Victory Loans which bring the \$2½ figure for wheat to the west. It is simply up to the farmers to invest every cent they can scrape up in Victory Bonds. Canada must stand on its own legs in this matter, and the farmers are urged to stand on theirs, and be independent of somebody else's support. Buying Victory Bonds is a matter of sound common sense.

Western grain growers, who are receiving \$2½ a bushel from the Government for their wheat, and good prices also for their products, are being urged to invest as much as possible of their profits in the forthcoming Victory Loan.

The appeal is not made solely on patriotic grounds, although the farmers have profited largely through the actions of the country. They are being asked to consider the buying of bonds from the standpoint of good common-sense business.

The proceeds of the forthcoming Loan will be used to a considerable extent in the financing of trade in western grain. Great Britain and other countries need our foodstuffs, but cannot buy unless given credit. The Loan will secure that credit.

The western farmer who invests in Victory Bonds not only places his money in a sound, profitable security, but gets it out to make more money. The western farmer will have to

Men, Men! Try It Tonight— Feel Fine Tomorrow

Simple Way to Get "Pep" To Be
Put Right On Your
Feet

When a man has lost ambition to "dig in" and stay at things—when he complains of headache, fullness in the right side, pains in the shoulder blade—it's purely a case of "Liver."

These symptoms invariably indicate a clogged, inactive liver. The body can't get rid of its wastes, and the whole system is half paralyzed.

Dr. Hamilton's Pills stimulate the liver into activity in one night. Acting as a mild vegetable laxative, they produce results in a few hours. The bilious headache and constipation are cured, spirits rise, complexion clears, animation returns. Nothing in the calendar so efficient for that tired, lazy feeling as Dr. Hamilton's Pills. Very mild, don't interfere with work, invariably do lots of good. Try a 25c box, all dealers.

THE COW PUNCHER

—BY—
ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By
The Mussion Book Co., Ltd.,
Toronto. Printed By Special
Arrangement.

(Continued.)

"That is a good thought," agreed Mr. Duncan, "but not a conclusive one. In reckoning the happiness a man gives we must, of course, subtract the unhappiness he occasions. He may make a great sum of money, and use much of it in creating happiness, but if in the making of the money he used methods that resulted in unhappiness, we must subtract the unhappiness first before we can give him any credit for the happiness he has created. And I am disposed to think that many a philanthropist, if weighed in that balance, would be found to have a debit side bigger than his credit. No matter how much wealth a man may amass, or how wisely he may distribute it, we cannot credit him with success if he has oppressed the hireling or dealt unfairly with his competitors or the public. Such a man is not a success; he is a failure. In his own soul he knows he is a failure, that is, provided he still has a soul, and if not, as I said before, he is a greater failure still."

Out of this discussion Mr. Duncan evolved the copy line, "The success of a life is in direct proportion to its net contribution to human happiness," and Dave sat writing it far into the night. As soon as Dave had learned to read a little Mr. Duncan took him one day to the public library, and the young man groped in amazement up and down the great rows of books. Presently a strange sense of inadequateness came over him. "I can never read all of those books, nor half of them," he said. "I suppose one must read them in order to be well informed."

Mr. Duncan appeared to change the subject. "You like fruit?" he asked. "Yes, of course. Why?"

"When you go into a fruit store do you stand and say, 'I can never eat all of that fruit; crates and crates of it, and carloads more in the warehouse?' Of course you don't. You eat enough for the good of your system, and let it go at that. Now, just apply the same sense to your reading. Read enough to keep your mind fresh and alert, and vigorous; give it one new thought to wrestle with every day, and let the rest go."

Oh, I know that there is a certain school which holds that unless you have read this author or that author, or this book or that book, you are hopelessly uninformed or behind the times. That's literary snobbery. Let them talk. A mind that consumes more than it can assimilate is morally on a par with a stomach that digests gluttons, both of them. Read as much as you can think about, and no more. The trouble with many of our people is that they do not read to think, but to save themselves the trouble of thinking. The mind, left

to itself, insists upon activity. So they chloroform it."

Mr. Duncan also took occasion to speak with Dave about his religious views. He did not forget Dave's explanation of why he went out of the church. "I sympathize with your point of view a great deal," he said, "but don't be too sweeping in your conclusions. The church is too fussy over details; too anxious to fit the mind of man—which is his link with the Infinite—into some narrow, soul-crushing creed, too insistent upon the form of belief and not nearly insistent enough upon conduct. It makes me think of a man who was trying to sell me an automobile the other day. He was explaining all about the trimmings; the cushions and the lights and the horn and all that sort of stuff, and when he was through I said, 'Now tell me something about the motor. I want to know about the thing that makes the wheels go round. If it's no good I guess the trimmings are only fit for junk.' Well, that's the way with the church. The motor that has kept it running for nineteen centuries is the doctrine of love; love of man to man, love of man to God, love of God to man. Nothing about wrath—that's only a back-fire—but love. Without that motor all the trimmings are junk. Each sect has its own trimmings, but they all profess to use the same motor. . . . Still, the motor is all right, even if it is neglected and abused. I don't think you'll find a better, and you must have power of some kind."

"What about Socialism?" asked Dave.

"Very good, insofar as it is constructive. But there is a destructive brand of Socialism which seizes the fancy of disappointed and disgruntled men and women, and bids them destroy. There is a basic quality in all human nature which clamors for destruction. You see it in the child pulling his toys to pieces, or in the mob wrecking buildings. Destruction is easy and passionate, but construction demands skill and patience."

"I have been at some of their meetings," said Dave. "They lay great stress on the war between Labor and Capital."

"Between husband and wife in the family of production," interrupted Mr. Duncan. "Nothing is to be gained by that quarrel. I admit the husband has been overbearing, offensive, brutal, perhaps; but the wife has been slovenly, inefficient, shallow. Neither has yet been brought to realize how hopeless is the case of one without the other. And I don't think they will learn that by quarreling. What they need is not hard words, but mutual respect and sympathy, and an honest conception of what constitutes success. Doctrines and policies are helpful to the extent to which they cause men to think, either directly or by creating environment conducive to thought; but they will never bring the golden age of happiness. That can come only through the destruction of selfishness, which can be destroyed only by the power of love. That is why I emphasized the motor in our talk about the church. It is our only chance."

Dave's talks with Mr. Duncan became almost nightly occurrences, either at the Duncan home, or when he drove the family—for the master of the house often accompanied them—or when they met down town, as frequently happened. And the boy was not slow to realize the broad nature of the task to which Mr. Duncan had set himself. His education was to be built of every knowledge and experience that could go into the rounding of a well-developed life.

The climax seemed to be reached when Mr. Duncan invited Dave to accompany him to a dinner at which a noted thinker, just crossing the continent, had consented to speak.

"It will be evening dress," said Mr. Duncan. "I suppose you are hardly fitted out that way?"

"I guess not," said Dave, smiling broadly. He recalled the half humorous sarcasm with which the Metford gang referred to any who might be seen abroad in their "Hereford fronts." He had a sudden vision of himself running the gauntlet of the ridicule.

But Mr. Duncan was continuing. "I think I can fix you up," he said. "We must be pretty nearly of a size, and I have a spare suit." And almost before he knew it it was arranged that Dave should attend the dinner.

It was an eventful night for him. His shyness soon wore off, for during these months he had been learning to accept any new experience gladly. "Life is made up of experience," his teacher had said, "therefore welcome every opportunity to broaden your life by travelling in new tracks. There are just two restrictions—the injurious and the immoral. You must grow by experience, but be sure you grow the right way. Only a fool must personally

seize the red iron to see if it will burn. . . . But most of us are fools." And as he sat among this company of the best minds of the town he felt that a new and very real world was opening before him. His good clothes seemed to work up in some way through his sub-consciousness and give him a sense of capability. He was in the mental atmosphere of men who did things, and by conforming to their customs he had brought his mind into harmony with theirs, so that it could receive suggestions, and—who knows?—return suggestions. And he was made to think, think, think.

As he walked home with Mr. Duncan under the stars he spoke of the subtle sense of well-being and ability which came with good clothes. "I don't mind confessing I have always had something like contempt for stylish dressing," he said. "Now I almost feel that there's something to it."

"There is some good quality in everything that survives," said Mr. Duncan. "Otherwise it would not survive. That doesn't mean, of course, that the good qualities outweigh the bad, but the good must be there. Take the use of liquor, for instance; perhaps the greatest source of misery we have. Yet it touches a quality in man's life: sociability, conviviality, if you like; but a quality that has virtue in it none the less. And the errors of sex are so often linked with love that one can scarcely say where virtue ceases and where vice begins. I know convention placards them plainly enough, but convention does not make virtue vice, nor vice virtue. There are deeper laws down beneath, and sometimes they may set at defiance all accepted codes."

"Yet I would not quarrel with the accepted codes—until I knew I had something better. Accepted codes represent man's net progress through experience to truth. The code, for instance, 'Thou shalt not kill,' we accept it in general, but not completely. The State does not hesitate to kill in self-defence, or even to carry out purposes which have no relation to defence. And shall we not allow similar exceptions to the other codes? And yet, although we may find our codes are not infallible, are they not still the best guides we have?"

"To return to clothes. Clothes won't make you, but they will help you to make yourself. Only, don't become a clothes-tippler. You can run to intoxication on fine raiment as well as on fine wines. It has a virtue in it, but just beyond the virtue lies the vice."

CHAPTER EIGHT.

The summer was not far gone when Dave, through an introduction furnished by Mr. Duncan, got a new job. It was in the warehouse of a wholesale grocery, trundling cases and sacks of merchandise. It was cleaner than handling coal, and the wages were better—fifty dollars a month, to begin.

"The first thing is to get out of the dead-line," said Mr. Duncan. "I am not hoping that you will have found destiny in a wholesale warehouse, but you must get out of the dead-line. As long as you shovel coal you will shovel coal. And you are not capable of anything better until you think you are."

"But I've liked it pretty well," said Dave. "As long as I was just working for my wages it was dull going, but it was different after I got to see that even shovelling coal was worth while. I suppose it is the same with groceries, or whatever one does. As soon as you begin to study what you handle the work loses its drudgery. It isn't a man's job that makes him sick of his job; it's what he thinks of his job."

A Programme Of Reconstruction

Promote a Good Understanding Between Capital and Labor

Under the second heading, i.e., conservation of our human resources, we should (1) make up our minds individually to do some useful work and to do it thoroughly; (2) promote the better organization of industry from a social standpoint, in other words, a good understanding between capital and labor; (3) organize our systems of transportation, storage, and distribution so that products may be conveyed from producer to consumer with the minimum of effort and expense; (4) encourage the work of soldiers' civil re-establishment by practical sympathy with the returned soldier; (5) as voters and citizens, insist on efficiency in public hygiene and sanitation; (6) reduce our abnormal infantile mortality; and (7) support all sound schemes of town planning and better housing, and never relax our efforts till every family in the country has a decent home to live in.

The aims enumerated above embody a programme of reconstruction. Some of them lie outside the field of the commission of conservation, but most of them are within the scope of the work that it exists to promote.—From Conservation.

How Long Can They Do It?

What Is the True Relation of Cost of Revenue in Government Operation of Roads

There is in Canada current opinion that it costs the Government \$1.03 to get \$1 gross revenue from the railroads which have been emancipated from the capitalistic class. A deficit of \$50,000,000 in 1919 is the forecast. This straightway gives rise to conjecture as to what the true relation of cost and revenue would be if some courageous administration reached down to the bottom of our Government operation of the roads.

Thanks in part to the peculiarities of the Canadian situation, the private Grand Trunk and Canadian Pacific have contributed nobly to the Government's experiment in railroad operation. This and other causes have steadily lifted the percentage of cost to gross revenue. Today it is 89 per cent. for the Grand Trunk and 81 per cent. for the Canadian Pacific. The percentage thus actually discloses the shocking scandal of surplus, rather than the uplifting inspiration of deficit.

Monthly statements, duly audited and certified, show Canadian Pacific and Grand Trunk can still operate on their own motive power. The exact status of the government roads is not so clearly revealed. Why it is not is a matter of conjecture, friendly, invidious or neutral, as may be. Some irreconcilables want to know how they are to reach a conclusive audit of Canadian Northern, making a true capital investment basis for figures. Others say there is an operating deficit of more than three per cent.

What if it be so that the more wheels turn round and the faster they go, the more money they lose. If it costs 3 cents net loss to take in a dollar, isn't the taxpayer there to pay it? And doesn't the paltry 3 cents go at once back into circulation? "As long as he has a dollar left to burn, why shouldn't the taxpayer write and turn?"

A staunch supporter of a western co-operative grain concern with a long and honorable record of losses used to refer to its "turnover" as its "turnunder." Happily free of the embarrassment of literary cult, he has given the government's railroad auditors a book heading, accurate and novel. They should be satisfied, and so should the taxpayers. For, as a facetious inquirer for Government figures says: "If a taxpayer is not to pay these taxes, what is he for?" But how long can they do it?—Wall Street Journal.

D'Annunzio's Message To The Venetians

Urging Them to Throw Off the Shameful Yoke

Rome, Italy. — Papers in Venice publish a message from Capt. Gabriele d'Annunzio to Venetians invoking their aid and urging them to throw off the shameful yoke. Captain d'Annunzio declares, "I am absolute master of Fiume. The victorious army, reprimanded in its own country, is reconstituting itself around me, is being consolidated, and is triumphing. I shall remain at Fiume in face of all. We shall build at Fiume a new country."

Wants Parliament Called
London. — William C. Adamson, chairman of the Labor party in parliament leader of the opposition there, has telegraphed to Prime Minister Lloyd George, asking that parliament should be summoned immediately.

YOU NEED NOT STOP

working or playing, as the case may be, when you sustain a skin injury, so long as you apply Zam-Buk at once. This herbal balm will stop the bleeding, end the pain, destroy all germs, prevent blood-poisoning and heal quickly.

Zam-Buk should be in every home, especially where there are children. Children who have once had Zam-Buk applied will cry for it again. They never forget a remedy that ends their pain. Get a box to-day and keep it handy. Zam-Buk will keep indefinitely without losing any of its strength or purity. As a household balm, therefore, it is most economical.

Equally good for cuts, burns, scalds, bruises, sores, rashes and eczema. All dealers 50c. box.

Zam-Buk

Water Supply For Saskatchewan Cities

Moose Jaw and Regina May Have
New Water Systems

Regina, Sask.—After a lapse of several years, the proposal to secure a water supply for the cities of Moose Jaw and Regina from the south branch of the Saskatchewan river has been revived. Both cities suffer from lack of water, and although the citizens are assured that there is a plentiful supply available through the present water systems, the fact remains that on many occasions the pressure is inadequate to lift water above the first floors.

The present water supply of Regina is derived from artesian wells, and the water is extremely hard, so much so that the annual expense in replacing pipes and plumbing fixtures is very great. To pipe water from the Saskatchewan river would mean a line of about 100 miles, but it has been estimated that the annual charges to the cities served would not be any more than under the present system.

The Board of Trade has appointed a committee to discuss the question with the City Council and the Provincial Government.

Prize Flight Over Pacific

Non-Stop Aviation Trip Proposed
By All-Canadian Ship
and Crew

Victoria. — Norman A. Yarrow, of Victoria, head of Yarrow's Limited, Esquimalt, with the assistance of friends, has offered a prize of \$50,000 for the first non-stop airship flight across the Pacific Ocean from Vancouver to Japan. The conditions attached to the prize are as follows:

The airship "lighter than air" shall be made in Canada, including all parts and materials. Any parts and materials that are not being made in Canada at the time the airship is constructed may be imported. The airship shall be navigated and manned by Canadians only during the trans-Pacific flight. The flight shall be non-stop from Vancouver Island, British Columbia, to Japan. The flight shall be performed prior to December 31, 1921.

Germans Are Still In The Baltic

Allied and American Officers Must
Carry German Pass

Riga.—Although under the peace treaty the Germans agreed to withdraw from the former Russian Baltic provinces, and despite repeated "ultimatums" from the Allies at Paris, the Germans are still in the Baltic.

The Germans under General von der Goltz occupy Mitau, only 25 miles from Riga, with 40,000 troops, while in the surrounding territory he is reported to have nearly 100,000.

Allied and American officers wishing to pass through the zone of occupation must obtain and carry a German pass, or they would be arrested by the first German sentry they met.

After the Germans occupied Mitau one of their officers, Major Bishop, addressed the troops, telling them that even though their actions might not be authorized by the Berlin Government, they need not fear punishment. In this speech he attacked the Allies, especially the British.

The Germans' game in the Baltic is a deep one. They continue their flirtations and secret intrigues with the Bolsheviks.

Aerial Development

Feasibility of Establishing Fast Mail
Service Between Canadian and
American Cities

The possibilities of aerial development are beyond those of all other means of communication and transportation now known to man. During the international race, which had as its primary object proof as to the feasibility of establishing a fast mail service between several Canadian and American cities, letters and newspapers travelled from New York to Toronto or vice versa in a very few hours. What the ultimate establishment of a regular service of this kind, which could be maintained with reasonable certainty for several months in the year, would mean to the business interests of both communities is impossible of estimation at this time.

In Britain, where the airplane is in steady use for commercial purposes, including a passenger and mail schedule from London to Paris, the benefits of the air route have been proven beyond all possibility of discussion. The development there is continuing with a breadth of vision and a rapidity that show to what extent the British people regard the importance of aerial leadership in every phase of its application to modern conditions.

The international contest, which has had its advertising value for Toronto, and Canada generally, as well as for the Canadian National Exhibition, has rather emphasized the reliability of the airplane as well as its adaptability for the services of peace.—From the Toronto Globe.

Comet Approaching Earth

Cambridge, Massachusetts. — The comet discovered recently by Dr. Joel H. Metcalf, of the Harvard Observatory, will become visible to the naked eye within a short time. It is now of the eighth magnitude, but on October 16 will be four times brighter and about 44,000,000 miles from the earth. It is now near the sun, and its course will take it close to the polar star.

Germans Ask Loan From Argentina

To Facilitate the Purchase of Raw
Materials

Buenos Ayres, Argentina.—Formal negotiations were opened by Germany for a loan of \$100,000,000 from Argentina to facilitate the purchase of raw materials in this country. Foreign Minister Pueyrredon, on whom the German delegation called, told the visitors the matter would be referred to President Frigoyen. It was stated by the delegation that such security as Argentina desired would be provided.

Proposals were made by the Germans looking to the formation of a local syndicate by the principal German concerns in Argentina, which syndicate would purchase materials and expedite shipments to Germany.

To Ensure Coal Supply

Washington.—The British Embassy has informed the state department that owing to the railroad strike in England, the supply of bunker coal, Gibraltar, Malta, Egypt, Sierra Leone and British coaling stations in the Atlantic probably will be restricted for the present to outward bound British vessels.

Closing of some of the principal ports of the United Kingdom, also probably will be necessary during the strike, it was said, in order to prevent congestion, while an order holding all British vessels bound for the British Isles either in the leading ports or at a port of call, was said to be imminent.

It is easier to mend a broken heart than a broken head.

British Mission Captured

The members of a British mission sent into the interior of Arabia to interview the Imam of Yemen have fallen into the hands of hostile Sheikhs at Bajil, it has been learned in London. They were deprived of their arms and supplies, and their lives were threatened. Latest reports indicate that no harm has been done to the party and that it probably will be released.

London Prices Fall

London, England.—An increase in courtesy on the part of shopkeepers and a decrease in prices have resulted from the profiteering act passed by parliament. Clothing has dropped 35 per cent. in cost. Fruits have gone down 50 per cent. Dealers have ceased to charge for wrappings.

Middle Aged Women

Are Here Told the Best Remedy
for Their Troubles.

Freemont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. GORDON, 925 Napoleon St., Fremont, Ohio.

North Haven, Conn.—"Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed when passing through change of life. There is nothing like it to overcome the trying symptoms."—Mrs. FLORENCE LABELLA, Box 197, North Haven, Conn.

In Such Cases

Belgian Embassy Issues A Denial

Belgian Minister Has Not Been Recalled From The Hague

London, England.—The Belgian Embassy in London has authorized a complete denial of the Berlin report that the Belgian Minister has been recalled from The Hague and the Dutch Minister from Brussels. It is explained that the return to their respective countries of Carton De Wiart and Van Vollenhoven is merely a coincidence.

The former is giving up his diplomatic work to resume his political career, and the future Dutch Minister, who is taking the place of the charge d'affaires, Van Vollenhoven, has been already nominated.

DREADED INFLUENZA

Medical Men Believe It Will Again Visit Canada This Autumn and Winter

There is a widespread belief among medical men that the epidemic of la grippe, or influenza, which swept over the world last year, will again appear in Canada during this autumn and coming winter. This dangerous trouble spares neither age nor sex, but it naturally finds its easiest victims among those who are run down in health, or those whose blood is weak and watery, and it is among the latter class in which the greatest number of fatalities occur. The surest way to prevent an attack of this dreaded trouble is to keep the blood rich and pure, and the safest and best way to do this is through the use of Dr. Williams' Pink Pills.

No reasonable precaution to avert an attack of influenza or la grippe should be spared. The disease itself is deadly, but its after-effects, among those who are spared, make the life of the victim one of constant misery. Ask almost any of those who have been attacked by influenza what their present condition of health is and most of them will answer: "Since I had the influenza I have never been fully well." This trouble leaves behind it a persistent weakness of the limbs, shortness of breath, bad digestion, palpitation of the heart, and a tired feeling after even slight exertion. This is due to the thin-blooded condition in which la grippe almost always leaves its victims after the fever and influenza have subsided. They are at the mercy of relapses and complications, often very serious. This condition will continue until the blood is built up again, and for the purpose of building up the blood and strengthening the nerves nothing can equal a fair treatment with Dr. Williams' Pink Pills. From first to last these pills make new, rich blood, which reaches every organ and nerve in the body. Thus the lingering germs are driven out, and the weak, despondent victims of influenza are transformed into cheerful, healthy, happy men and women.

But better still, you can put yourself in a condition to resist an attack of influenza by enriching the blood through the use of Dr. Williams' Pink Pills, and this, it seems, is the sensible thing to do at once.

Dr. Williams' Pink Pills are sold by all dealers in medicine or by mail at 50 cents a box, or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

Falkenhayn Blames Government

Berlin.—In his forthcoming book dealing with events from 1914 to 1916 General von Falkenhayn, former chief of staff of the German army, complains of the government's failure to adopt his proposals in 1915 for the inauguration of peace negotiations with Russia. He also blames the government for its delay in beginning submarine warfare, whereby, he says, the German people were deprived of a "sure and effective weapon."

Some men seem to expect Opportunity to drive up to the door and take them for a joy-ride.

Faultless in Preparation.—Unlike any other stomach regulator, Parmelee's Vegetable Pills are the result of long study of vegetable compounds calculated to stimulate the stomachic functions and maintain them at the normal condition. Years of use have proved their faultless character and established their excellent reputation. And this reputation they have maintained for years and will continue to maintain, for these pills must always stand at the head of the list of standard preparations.

Ease Up Homework. Toronto.—Hon. Dr. Cody, Minister of Education, has sent out to the teachers of the continuation schools, high schools and collegiate institutes an edict that they are to ease up on the homework which they have been accustomed to giving students.

Blow Struck At German Shipping

Series of Consequences Which Ultimately Will Be Fatal

Philip Heineken, director-general of the North German Lloyd, discusses the future of German shipping and Germany's economic situation generally in the North German Lloyd's new year book. Heineken says the destruction of German shipping follows naturally from the entire destruction of Germany's economic life decided on by the peace treaty, but that German shipping is hit twice since, besides the peace treaty's direct effects. There are a whole series of sympathetic consequences which ultimately will be fatal for German shipping. These include diminution of German territory, which reduces the number of docks, iron works and coal mines, thereby reducing the capacity for shipping construction. The indirect influence correct. Of stature he was perhaps of territorial cessions is great through the transference of German railways to foreign possession, and through Rhine navigation, and partially Vistula navigation coming under foreign control. The transference of industries in other regions—for example, the potash mines in Alsace, the textile factories and iron works in Lorraine, Luxembourg, etc.—means serious injury to shipping owing to the loss of transport in consequence of the diversion of traffic from German ports and ships. Undoubtedly the industries will conduct their import and export from Antwerp or French ports, through French and Belgian firms, which completely excludes the employment of German vessels, especially since the foreign lines have had sufficient time to work themselves into this traffic.

In addition, account must be taken of Germany's renunciation of her overseas possessions and of the realization of the Entente's demands for damages, of the costs of contesting enemy prize court judgments which contravene international law, and finally of the decision that all German property abroad is to be reckoned only at the peace rate of exchange. Germany is robbed of all her overseas plant and harbor concerns for navigation. The German seaport towns' vitality is intentionally weakened by the Entente's having insured to itself the right to appropriate to itself the emigration traffic arranged by Germany, to utilize harbors and inland waterways practically free from any German control, and finally to make quite generally, and without reference to German shipping interests, any kind of agreements whatever with Germany's former allies which Germany must accept without seeing them.

Heineken says it would be foolish to deny that the ton-for-ton principle ruthlessly carried out in the Peace Treaty has struck German shipping to the marrow.

The Last Asthma Attack may really be the last one if prompt measures are taken. Dr. J. D. Kellogg's Asthma Remedy will safeguard you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. It always relieves and its continued use often effects a permanent cure. Why not get the Kellogg remedy today and commence its use? Inhaled as smoke or vapor it is equally effective.

The Lone Match

An Experience Which Befell King Edward

The Prince of Wales has had many strange experiences on his Canadian travels, but it is hardly likely that he will be called upon to endure such a terrible ordeal as befell his grandfather during his sojourn in Canada. One day, when crossing the prairies, he produced a cigar, and his companions followed suit. "A match, please," he requested, whereupon it was discovered that there was but one match among the whole party. Wind was tearing across the prairie, and lots were cast to determine who should attempt to keep the solitary, precious match alight. To his dismay the lot fell upon King Edward, then Prince of Wales. He lay on the ground, and his companions gathered round and stretched their coats for shelter. The match was lit—so were all the cigars. But seldom before or after, King Edward used to say, did he feel so nervous as at the moment of striking that match.

Germany's New Escutcheon Berlin.—Germany has a new escutcheon, from which the Hohenzollern arms have been eliminated. It consists of a black one-headed eagle on a gold field. The "new" eagle, which has shed its erstwhile imperial crown and collar, is not a rampant bird and would look sedate enough in its sitting posture but for the color of its beak, tongue and talons, which are red.

Admiral Beatty Given Banquet

Unique Compliment By Sailors To Admirals Of British Fleet

Portsmouth, England.—Vice-Admiral Sir David Beatty was given an unique compliment when, with 42 of his admirals, he was entertained at dinner in the town hall here by some 500 lower deck men, and presented with a silver cigar box as a token of loyalty and affection from all the ratings in the navy.

The day was made a great occasion here, salutes being fired upon the vice-admiral's arrival and his automobile being hauled through the streets to the town hall by sailors. Twenty thousand townspeople gathered at the town hall and cheered heartily, while the 500 hosts of the vice-admiral formed up on the steps to welcome him.

SUMMER COMPLAINT IS A SERIOUS BOWEL TROUBLE

Very few people escape an attack of Summer Complaint. It may be slight, or it may be severe, but nearly every-one is liable to it. You can't tell, when it seizes on you, how it may end.

Allow the profuse diarrhoea, the vomiting and purging to continue for a day or two and you will become weak and prostrated.

Just as soon as the bowels become loosened up, get a bottle of Dr. Fowler's Extract of Wild Strawberry and check these unnatural movements, and thus prevent the system from becoming weakened.

Mrs. L. J. Alteen, wife of the well known wholesale and retail Fish Dealer, 44 Hill St., Amherst, N.S., writes:—"I have four children, the oldest being eight years old. Every summer they were troubled with Summer Complaint. Doctors' prescriptions did not seem to help them any. One day a friend asked me to use Dr. Fowler's Extract of Wild Strawberry. I at once got a bottle, and to my surprise and wonder, I soon saw a change in them. I now keep a bottle of it in the house all the time, and will recommend it to any mother."

"Dr. Fowler's" is 35c. a bottle. Get the original which has been put up for the past 74 years by The T. Milburn Co., Limited, Toronto, Ont.

Fish Catch Increases

Total Value on Both Coasts for Month, \$4,485,722

Ottawa.—An increase of \$225,882 in the total value of sea fish at the point of landing during the month of August, as compared with the same month last year, is shown by the monthly statement issued from the naval department. Fish to the value of \$4,485,722 were taken on both coasts last month.

On the Pacific coast, while the halibut fishing results were some 8,000 cwts. larger than in August, 1918, the total salmon landings fell off by 87,000 cwts. In the southern and Vancouver Island districts there was an all-round increase in the catch of 20,000 cwts.

British Sea Losses in War

London.—An official return just issued shows that British warships lost during the war numbered 254, including 13 battleships, 3 battle cruisers, 13 cruisers, 6 light cruisers, 64 destroyers and 54 submarines. Auxiliaries lost during the war totaled 815, including 244 colliers and 246 trawlers.

Catarh Cannot Be Cured

By LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE will cure catarh. It is taken internally and acts through the blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE is composed of some of the best tonics known, combined with some of the best blood purifiers. The perfect combination of the ingredients in HALL'S CATARRH MEDICINE is what produces such wonderful results in catarh conditions.

Will Attempt To Signal Mars

Building Huge Balloon for Communication With Far Away Planet

Omaha.—Leo Stevens, balloon instructor at Fort Omaha, announced that David Todd will attempt to communicate with the planet Mars this fall in a balloon to be constructed and piloted by Stevens. The balloon, to be the largest ever made, will ascend 50,000 feet, Stevens said. Its capacity will be 140,000 feet. The balloon will be enabled to rise to the expected height, Stevens said, by use of an invention which divides the balloon into two compartments, the upper containing hydrogen gas and the lower fresh air.

In Sweden every girl not born to wealth is taught a trade of some kind.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Would Establish Reindeer Ranches

Winnipeg.—Stefansson, the explorer, has interviewed the Manitoba government with a view to enlisting the aid of the province in establishing large reindeer ranches on arable lands in the northeast of the province, bordering on Hudson's Bay. No promise was made of what the government would eventually do in the matter.

Minard's Liniment Relieves Neuralgia.

Made Clean Sweep

Saskatchewan Farmer Wins Grand Championship in Iowa

George Rupp, of Lampman, Sask., has made a pretty clean sweep in the Belgian class at the Great Dairy Congress and Belgian Horse Show at Waterloo, Iowa. The Belgian show is characterized by the experts as the greatest breed show ever held in the United States. Rupp won 1st in his class, senior and grand championship for Belgian stallions with Paramount Flashwood (1,570), his beautiful stallion foaled June 5, 1917, and well-known on western fair circuits. He also secured second in the four-year-old stallion class, first and seventh for yearling fillies, and second and seventh for sucking foals. All classes had keen competition, entries being twenty or more in each class. He also got first in the group prize for three stallions, get of one sire, and a further first for three stallions bred and owned by exhibitor.

To Check German Army

Decision Reached Fixing Status of Body of Military Experts

Paris.—Marshal Foch, the allied commander-in-chief, obtained from the supreme council a decision fixing the status of the body of military experts charged with the determining at the end of each quarter the number of German effectives in the German army for the succeeding quarter. The marshal sent the council a note asking that this body be included among the missions of inter-allied control, and the council granted his request.

With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers. If you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's feet.

French Military Plans

Paris.—A peace time army of 350,000 men and reduction of the term of military service from three years to one are recommended to the military committee of the chamber of deputies by Paul Demer, former minister of state. Under his plan 200,000 men would be called to the colors annually by conscription and 150,000 others recruited through voluntary enlistment.

This system would make the French army on a war footing total 4,000,000 men, divided into an active army of 1,300,000 men, 700,000 reservists and 2,000,000 territorials.

Popular Young Gleichen Business Man Dies

It is sad at any time to stand beside the bed of the dying and watch life's ebbing tide drifting into the loved one slowly, but surely into the great ocean of eternity, but it is beyond mere words to depict the sorrow and anguish of those who are so dear and that one is a young man leaving a bride of three months and is the last child of a broken-hearted father and mother. Such is the sorrow felt in the loss of Keith Stanley Pinder, one of Gleichen's most promising young business men, who passed away last Thursday morning, Oct. 2nd, in the Holy Cross Hospital at Calgary, after one of the bravest and most persistent battles we have heard of. The vitality this young man displayed was wonderful to behold. For weeks he fought a most strenuous battle to recover and even when physicians after physician gave him up and the best obtainable in Calgary for his ailment was obliged to tell him he could not recover he would not for a moment admit defeat, but he finally slept away.

"Keith," as all who best knew him by, was twenty-five years of age, and came to Gleichen with his parents over eleven years ago from Stratford, Ontario, and for several years attended school here, after which he occupied positions in different stores in town, but on various occasions was obliged to seek outdoor employment owing to his heart being weak.

Last spring he entered into the firm's furnishings business under the firm name of Pinder & Stubbins and in a short time the two young men worked up an excellent trade. On July 2nd of this year he was married to Miss Gladys Garrett, one of our most successful young school teachers, but before they returned from their wedding tour he was taken with a severe cold and from that time saw no more of his bride, although his ever buoyant spirit caused him on several occasions to return for short intervals to his place of business.

Some weeks ago he developed typhoid from which he recovered, but again his old complaint returned, which he continued to combat with his wonderful resisting power. His relatives kindly realizing his position laid nothing unusual either in comfort, attention or skill, and when told there was but one chance that he might survive, which was by the transfusion of blood, many relatives and friends readily offered to submit to the operation. His wife's blood proving unavailable his mother successfully underwent the operation and Keith appeared to improve for a day or two before the end came.

The remains were brought to Gleichen Thursday night and on Friday afternoon the funeral service was conducted by the Rev. Canon Stuckes and the Rev. Mr. Matheson in St. Andrew's church, which was filled to the doors with friends and many had to remain out doors during the solemn service. After which one of the longest processions ever seen here followed the remains to the Gleichen cemetery, where the last and true were performed.

Never was more sincere sympathy shown the bereaved ones in their hours of care and watching during the illness and darkest sorrow by friends as in this instance.

Below is a list of the beautiful floral offerings that surrounded the unhappy casket. They would have been greatly increased in number had other friends been allowed time to obtain them:

- Mr and Mrs W and Mrs K Pinder, pillow
- Red Cross Society, Red Cross Kindergarten
- Mrs and W W Garrett and family, of Ingleth, wreath
- Mr and Mrs W Hill, wreath
- Mr and Mrs Read, cross
- J. Jackson, cross
- Mr and Mrs Ostrander
- H. Stubbins, anchor
- Rev E D Stuckes, wreath
- Mr and Mrs Hays, wreath
- G. Gleichen, wreath
- Mr and Mrs Wilson, spray
- Mr and Mrs Koebel, spray
- Mr and Mrs Stanley Hall, spray

Doris and Keith Hunkals, spray
Mrs and Mrs W W Brown, cross
Mr and Mrs Barbach, wreath
Mrs W J Hays, wreath
Mr and Mrs T W Bates and family, cross

All stockholders are requested to be present to hear the report of the last years business and to assist in outlining the future policy of the company and in the election of a board of directors.

Peoples Market Limited, W. D. TREGO, Secy.-Treas.

BUY AN IRRIGATED FARM FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE:

Irrigation makes the farmer independent of rainfall, and in sure good-crops, not occasionally, but every year.
Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insure good returns in dairying and mixed farming.
Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.
Irrigation in the Canadian Pacific Railway Irrigation Elok is no longer an experiment, the plans that it has been tried having been fully demonstrated in success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements (6% interest) no principle after first payment until end of fourth year, reduced interest if settlement conditions are complied and no water rental for first year. Contract can be paid off before maturity if desired.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

ALLAN CAMERON, Gen. Supt. of Lands Canadian Pacific Railway, Dept. of Natural Resources, 928 1st St. E. CALGARY, ALBERTA

Victory Loan 1919 Campaign Has Started

The Southern Alberta Victory Loan campaign is off to a good start. All committees have been appointed, district captains have been named and organization has in most cases commenced. Southern Alberta covered itself with glory by subscribing nearly nine million dollars to last year's loan. This year it is asked for six and one-half million dollars, and it will go "over the top."

In some places, owing to poor crops, people may think themselves too hard up to subscribe to Victory Loan, 1919, but that is a mistake. A man may be too hard up to subscribe as much as he would like to, but in this country he cannot be too hard up to subscribe at all. Therefore, the thing that is to be considered is not "Can I subscribe?" but "How much can I subscribe?"

There are very many reasons for subscribing to the Victory Loan. In the first place, it will help the returned soldiers. In fact, the plans for helping the returned soldiers could not go on without the Victory Loan. Every returned soldier should be an enthusiastic booster for the Victory Loan, because without it there is no use in talking about gratuities or anything like that, as the money would not be there.

It will help trade. Every farmer should be a booster for the Victory Loan, for upon it depends the sale of his crop at the good price he is getting for it today. If the Victory Loan fails the crop movement must cease; if the Victory Loan succeeds the crop will move out and the money will move in.

It will increase prosperity. Canada has subscribed about a billion dollars to its own Victory Loans, and every time it has put over a loan the bank savings throughout the Dominion greatly increased. Subscribing to the Victory Loan is like paying out money with one hand and taking it back with the other in increased

business, and having the bonds as well.

The Victory Loan has no politics. Following is a letter from Hon. Mackenzie King, leader of the Liberal party, to Sir Henry Drayton, minister of finance, which shows the country is united on behalf of the loan. A dispatch from Ottawa says:

OTTAWA, Oct. 3.—Thorough endorsement of the Victory Loan, 1919, is expected by Hon. W. L. Mackenzie King, leader of the Liberal party in the Dominion, in a letter addressed to the minister of finance, Sir Henry Drayton. This is his letter:

"My dear Sir Henry:

"I am pleased to join with you in commending the Victory Loan to the people of Canada.

"It is imperative that Canada's credit should be maintained.

"As the government finds that borrowing is a necessity to meet existing conditions, it is in every way desirable that the amount required should, if possible, be raised within Canada itself. I hope, therefore, that this loan may be over-subscribed by citizens of the Dominion.

"You appreciate, of course, that in expressing a desire to see the loan a success, such obligation as I may have in the matter of criticizing public expenditures is lessened rather than lessened; and that this endorsement is given upon your assurance that the organization of the campaign and everything about it is absolutely and entirely non-political."

"Yours sincerely,
"(Signed)
"W. L. MACKENZIE KING."

Subscribe to the Victory Loan work for it, and put your district at the head of the list this year.

Gleichen G.W.V.A. Doings

The secretary-treasurer begs to acknowledge the sum of \$20, an anonymous gift handed in by Comrade George MacLeod.

At the usual meeting held Sunday it was decided to at once arrange for the purchase of the necessary furniture for the hall in Parkin Block and also to arrange to have the G.W.V.A. band supply the music for the dance to be held on the 11th Nov.

Comrade Skene was appointed to audit and report on the administrative and relief funds.

Local and District News

The Victory Loan has nearly swamped our space this week and many interesting items are crowded out, but the cause justifies the use of the space. From Ottawa, Toronto and Calgary the head offices continue to demand the necessity of using every inch of newspaper space to complete the final victory of the world's greatest war, stating that the value of publicity last year made it apparent that even greater efforts should be made in this direction for the 1919 loan.

Tomorrow night, Thursday, Oct. 9th, Kelly's Vaudeville Show will appear in the Gleichen Opera House. This show comprises five acts of comedy, with singing and dancing and is highly recommended by Mr. Griesback to those who like plenty of fun. See the girls. Admission 50 and 75 cents.

Mrs. Harry Scott underwent a serious surgical operation last week in Calgary and had a tumor removed. Although in great danger for a time her many friends will be pleased to learn she is now improving nicely.

The famous English Versatiles and Pierotti Players appear in the Gleichen Opera House on Friday night next—Oct. 10th. This is the show with pep, girls, gowns and giggles you want to see.

E. L. Engram sustained a loss of about \$1500 Saturday night by a granary taking fire. The origin of the fire is unknown and the matter is being investigated.

Miss M. Scott has returned from Bassano, where she was operated on for appendicitis.

Mrs. R. C. Clifford will not receive this fall.

Send all your Job Printing to The Gleichen Call—learn the reason.

Crop reports covering an area of Alberta territory extensive enough to make them a fair average of the whole province, indicate just what old-timers prophesied some weeks before the first fall rains came. Once again Alberta soil has proven itself the finest in the world for a speedy recovery from bad conditions, and the farmers of the province as a whole will not be called upon to suffer in anything like the degree earlier estimates suggested.

No one likes the prospects of a dry year in this grain-growing part of the Dominion. Drought is a condition that gets on the nerves of the people and tests to the limit their faith and enthusiasm. But when the long-continued drought breaks and crops that till then did not look worth considering even for feed purposes, start a growth that puts them in the binder class before frost can attack them, the grand and glorious feeling that comes is more than a recompense for the weeks of nerve testing.

The come-back of agricultural Alberta in the season of 1919 will long stand as one of the finest advertisements this province can have among land seekers everywhere. It is doubtful is any other soil on the continent of America could equal the performance of Alberta dry land this year. Climate and soil unite in this favored province to work miracles and produce satisfying results under most unfavorable conditions. And when conditions happen to be favorable, which they are in the majority of seasons, the results are certain to be more than bountiful.

Cuticura Helps Clear Away Dandruff and Irritation

On retiring, comb the hair out straight, then make a parting, gently rubbing in Cuticura Ointment with the end of the finger. Anoint additional partings until the whole scalp has been treated. Place a light covering over the hair to protect the pillow from possible stain. The next morning shampoo with Cuticura Soap and hot water, using plenty of soap, best applied with the hands. Rinse in tepid water. Repeat in two weeks if needed. Cuticura Soap, Ointment and Talcum 25c. each plus Canadian duties.

Proportional Representation—No. 2

In last week's article on the above subject some of the inequalities of our present system of electing representatives to public office were pointed out, the growth of the P.R. method of election noted, and one or two principles underlying that method outlined. In conclusion it was stated that an endeavor would be made to explain the method of voting and election in this week's article.

First of all, let it be repeated and emphasized that it is the essence of representative government that every voter should be represented in the representative assembly. If a considerable proportion of the electorate come to feel that they have no voice in the Government, the distance is short to that dangerous state of mind which regards political processes as futile and hopeless. The world today, Canada included, requires to guard against this.

The theory of Proportional Representation is that each considerable party or group of opinion should be represented in parliament, or legislature, or municipal council, in proportion to its voting strength—that majorities may rule and minorities be heard. How does Proportional Representation put this theory into practice? The method used is what is known as the transferable vote.

When the ballot with the list of candidates for an office, say a municipal council, is presented, the elector, instead of marking "X" after his choice, or choices if more than one is to be elected, as at present, votes as follows:

(a) By placing the figure 1 after his favorite candidate. The voter may also:

(b) Place the figure 2 opposite his second choice;

(c) Place the figure 3 after his third choice, and so on, numbering as many candidates as he pleases in the order of his preference, and may even so indicate his preference for a larger number of candidates than are actually to be elected.

A candidate, to ensure election, need not poll a majority, but only a certain proportion of the votes cast, called a quota. This quota is the smallest number of votes required to ensure election. For example, in a constituency electing only one member, it is not necessary even now that a candidate should poll all the votes; if he obtains one more than half he secures a majority and is elected, because no one else can poll so many. Similarly, under P.R., it would be necessary in a one-member constituency for the candidate elected to secure a clear majority. In a two-member constituency, a candidate who obtains one more than a third would be elected, for only two candidates can each poll more than a third. If three members are to be

elected, it would take one more vote than a fourth of the votes cast to ensure election.

This quota necessary to election is, therefore, found by dividing the total number of votes cast by one more than the number of representatives to be elected and adding one. For example, assuming that there are three candidates to be elected, and the total vote cast was 620. The latter figure divided by four (that is, one more than the number to be elected) gives 155, and this, plus one, gives 156, which would be the quota, and as not more than three candidates could secure that number, regardless of how many might be in the field, those three would be elected.

The next question is: How are the votes counted and transferred?

(a) The first preference votes obtained by each candidate are noted—that is, the candidates opposite whose names the figure 1 has been marked by the voters.

(b) The quota is ascertained in the manner outlined above.

(c) Candidates, if any, who have received the quota; or more than the quota, are declared elected.

(d) Surplus votes of those candidates who have received more than their quota are transferred, in strict proportion, to the unelected candidates indicated as the next preferences by the voters (that is, candidates having the figure 2 opposite their names).

(e) Any further candidates who, as the result of such transfer of second preferences, have received the necessary quota are declared elected.

(f) The candidates lowest on the poll are then eliminated one after another, and the votes they receive are transferred in accordance with the next choice of the electors indicated thereon. This process is continued until the required number of candidates have obtained a quota, or the number of candidates not eliminated is reduced to the number of seats vacant.

It will be seen, therefore, that whereas under our present system the voter who marks a ballot for a candidate who is at the foot of the poll completely loses his representation in the public body for which the election is held, under Proportional Representation he, having failed to secure the election of his first choice, has his ballot transferred to his second choice; if his second choice fails of election, his vote is transferred to his third choice, and so on. Thus every voter, in the final analysis, is represented by a representative for whom he recorder a preference. Surely, a more democratic and fairer way than obtains under our present system.

(Next week some examples of how P.R. has worked out where it has been tried will be given, and possibly some of the objections raised against P.R. answered.)

BABY'S OWN TABLETS OF GREAT HELP

Mothers, if your baby or growing child is sickly; if he does not sleep well at night; if he cries a great deal; is constipated and his little bowels and stomach are not working right, give him Baby's Own Tablets—they have proved of great help to thousands of mothers. Concerning the Tablets, Mrs. W. H. Decater, Corson's Siding, Ont., says: "I have used Baby's Own Tablets and have found them excellent for the little ones, and would not be without them." The Tablets are a mild but thorough laxative and are guaranteed to contain no harmful drug—that is why they always do good and never harm. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Road Building in Manitoba
Winnipeg.—Authorization for the construction of 277 miles of roads, under the Good Roads Board, has been announced. The approximate cost is \$676,000. This brings the total mileage up to 3,758 miles at a cost of about \$8,219,000, borne equally by the province and municipalities.

Regulate Cold Storage

Washington.—Federal regulation of cold storage as an aid in reducing the cost of living was agreed to by the house agriculture committee, as recommended by the President in his address on the high cost of living. The committee reported a Bill limiting the time that food may be held in storage to twelve months, and providing that cold storage food must be plainly marked.

RUNNING NOSE COLDS STOPPED INSTANTLY

Throat Is Cleared, Headache Stops, Sniffles Go for Good

CATARHOGONE NEVER FAILS

Dripping from the nose is one of the foulest and most disgusting symptoms of a Catarrhal cold. By using Catarrhogone you cure this quickly—cure it because you bathe the lining of the nose and throat with that powerful antiseptic of the Blue Gum of Australia.

So healing is Catarrhogone that you feel wonderfully benefited in five minutes' use of the inhaler. Nothing ever devised cures a cough, cold or sore throat so quickly. No drugs to take, nothing to upset the stomach—you follow nature's own plan in using Catarrhogone which supplies healing essences and soothing balsams in vapor form to the places that are needing treatment.

Results talk—that's why thousands rely solely upon Catarrhogone to prevent and cure their winter ills. Get the complete \$1.00 outfit, it lasts 12 months; small size 50c, sample size 25c, all dealers and the Catarrhogone Co., Kingston, Canada.

Cannot Visit Mexico

British Citizens Cannot Now Enter Mexico, According to Regulation

Washington.—British citizens desiring to visit Mexico for the first time cannot get their passports vised, under instructions which Ambassador Bonillas said he had sent to the Mexican consuls. British subjects resident in Mexico, or who have interests there, were not affected, he said.

The ambassador did not know why his government had taken this step, but pointed out that the British Government had refused to vize passports for Mexicans desiring to go to Europe, when they had to pass through England. Heretofore, the entry of British subjects into Mexico had been permitted, providing they signed an agreement absolving the Mexican Government from liability for any "accident" they might sustain.

It Makes New Friends Every Day.
—Not a day goes by that Dr. Thomas' Electric Oil does not widen the circle of its friends. Orders for it come from the most unlikely places in the west and far north, for its fame has travelled far. It deserves this attention, for no oil has done so much for humanity. Its moderate cost makes it easy to get.

More Cranberries This Year

Washington, District of Columbia.—This year's crop of cranberries, according to the September forecast of the Department of Agriculture, will be about 673,000 barrels, against 350,000 barrels last year.

Minard's Liniment Cures Burns, Etc.

Doukhobors May Move

Verigin Says Sect May Migrate to South America

Regina, Sask.—That it is quite possible the Doukhobors in Canada will move to fresh pastures, was the statement made here by Peter Verigin, the leader of the sect. The Doukhobors own a lot of land in Saskatchewan, Alberta and British Columbia, the largest colony being in the latter province.

If the land holdings could be disposed of, said Mr. Verigin, it would be easy to move, and South America would likely be their choice of a new home.

We've noticed this; since prohibition went into effect there are more pretty little girls with new hair ribbons on than there used to be. — Detroit Free Press.

Diamond Discovery On The Gold Coast

All Stones Found Up To Present Are Small

London, England.—An interesting discovery of diamonds was made in the Gold Coast early in the present year by the director of the Geological Survey, Mr. Kitson. The stones occur in shallow quartz gravels of the Abomo stream and adjacent ridge, near the village of Abomoso, Birrin River, at about 15 miles northwest of Kibbi, in the district of Akim Abuskuwa, and some 65 miles to the northwest of Accra, the capital of the colony. All the stones found up to the present time are small, averaging approximately 30 to the standard carat, the largest being about 1.5 carat. Most of them are of good quality, clear and colorless, while many are perfect crystals. In value they vary from 10s to 12s per carat for the smaller grade; 17s 6d per carat for the medium grade, and 20s to 32s 6d per carat for the larger grade. This is for mixed samples including all qualities of stones. Some of the largest stones, however, are worth from 70s to 80s per carat.

Upward of 600 diamonds have been found by panning during the time the surrounding locality was being tested with regard to the origin and distribution of the diamondiferous gravels. Sufficient work has not yet been done to prove the value of the discovery.

Boycott Hits Japan

China Willing to Give Us Trade If Ships Are Provided

According to the Japanese newspaper, Nichi Nichi, the Chinese boycott on anything made in Japan is having its effect on Japanese trade. The paper estimates that Chinese imports from Japan have dropped 70 per cent to 80 per cent since the boycott began early this year. Exports out of Japan were: April, 26,840,000 yen; May, 25,670,000 yen; June, 19,860,000 yen.

The statement is made in China that if the United States and Canada put more ships on the Pacific they can get the trade that China formerly gave to Japan.

Female weavers in Japan earn on an average of from 16 to 19 cents a day.

Minard's Liniment for sale everywhere.

Jos Martin to Run as Labor Man
London.—Joseph Martin, former member of the British House of Commons, states in a letter received here that he is returning from Vancouver and hopes to contest South Islington in the Labor interests at the next election.

Jakey's Comeback

Rosenberg: You was a liar, and a scoundrel! Do you hear dot?
Einstein: I heard you already, and I think you was talking to yourself.

Corns are caused by the pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Holloway's Corn Cure is available.

Canada's Fire Losses

Ottawa.—Fire losses sustained in Canada during 1918 by fire insurance companies totalled \$19,359,252, as compared with \$16,379,102 in 1917, according to the annual report of the Dominion Department of Insurance, tabled in the Commons.

Some remarks would be more remarkable if left unsaid.

WHERE MONEY IS TIGHT

Everybody suffers, when boots are tight your corn suffers, but they can be painlessly cured by Putnam's Corn Extractor. Guaranteed in all cases. Use only Putnam's, 25c, at all dealers.

Soldiers Will Maintain Law

"The Veterans of France and Comrades" Incorporated for That Purpose

Ottawa.—"The Veterans of France and Comrades," a corporation with head office at Hamilton, has been granted incorporation, according to notice given in the current issue of the Canada Gazette. The corporation is granted for purposes including the following:

"To stand by the civil authorities in suppression of mob law and brute force."

"To use every endeavor possible to restore returned soldiers to a social sphere in civil life."

The directors are John Anderson, M.C.; James Hindlayson, D.C.M., M.M.; James A. Smart, John Newton, M.M. and bar, and J. A. Stirling, all of the city of Hamilton, Ont.

W. N. U. 1284

More German Trickery

Herr Noske Demands Right to Maintain 400,000 Troops During Winter

It is good news that Marshal Foch is keeping a sharp eye on Germany and her Ministers. The treatment of the Poles in Upper Silesia is a matter that requires his attention, and even more important than this are the statements which the German War Minister, Herr Noske, has just made to a correspondent of the Paris Matin.

Herr Noske demands the right to maintain 400,000 German troops with the colors during the winter, though by the peace terms the German army must before April be reduced to 100,000 men. His first excuse is that the German labor market cannot absorb 300,000 men, yet almost in the same breath he calls for the return by the Allies of more than half a million prisoners taken in the war. If there is work for them, there must be work for the 300,000 troops who ought now to be demobilized, and if not, why does he want them back? His second excuse is that Germany needs a large armed force because there is internal danger from Bolshevism. But Bolshevism, as Count Brockdorff-Rantzau told the National Assembly recently in a secret session, "is not dangerous to Germany." It is a bogey which is trotted out whenever German Ministers want to dupe the Allies and obtain concessions from them.

We hope, therefore, that the Allies will be perfectly firm and allow no tricks. Even more impudent is "ficers" accused of war crimes, impossible to hand over German officers" accused of war crimes, though by the 228th article of the treaty they must be so surrendered. He pretends that no crime has yet been imputed to any German officer, forgetting that the British Admiralty has named five German naval officers responsible for the submarine campaign and for the sinking of hospital ships; that the French Government has already named two officers responsible for the Lille deportations; and that the Belgian Government is preparing to call for the surrender of Major Manteuffel, guilty of the massacres at Louvain, and Major Sommerfeld, guilty of the massacres at Terwende, with several others.

Herr Noske is still under the delusion, it seems, that Germany was not defeated in the war. That illusion the last instalment of Ludendorff's memoirs, just published, should for ever remove. The German Chief of Staff admits that in the great battle of August 8 last year his troops were routed, and his subsequent statement in the documents contained in the German White Book confess that all the leading German generals in October, 1918, shared his view that peace was necessary owing to the broken and demoralized state of the German troops.—London Express.

Explorer Finds

Buried Village

Eighty Well-Preserved Frozen Bodies Were Found

Nome, Alaska.—Discovery of an ancient buried Eskimo village near Point Barrow, "the corner of the continent," was made recently by W. B. Van Valin, who has arrived here on his way to the States after spending nearly two years in the Borrow country for the University of Pennsylvania museum, gathering relics of what has been termed the "stone age" of the natives of far northwestern Alaska.

Eighty well-preserved frozen bodies were found in the village, Van Valin reported. Their clothing and the shape of their heads and other parts of their bodies differed from the clothing and bodies of the present day Eskimo. Remains of several of the Eskimos were shipped by Van Valin to the museum.

Evidently the ancient village was overtaken by some catastrophe, it is believed. None of the present natives of the Borrow section knew of the existence of the lost village.

Cordage Co. Gets Loan

British Columbia Gives Financial Assistance to Returned Men

A loan of \$200,000 was made by the British Columbia Provincial Government to the Canada Western Cordage Company, Ltd., of New Westminster, a returned soldier enterprise. The loan is made in accordance with an act passed at the last session of the legislature and is to be used for the erection of a cordage factory and the installation of machinery. It is provided that the company shall subscribe for stock to the extent of \$100,000, 60 per cent. of which is to be paid up.

Keeping Fit

BY DR. SAMUEL HAMILTON.

It is because of the war that the perfect physical man has all at once become the idol of the world. You can make of yourself, even rather late in life, almost anything you like. You are not going to get fit in one day, one month, or, perhaps, a year, unless you take enough outdoor exercise to keep the circulation going and practise the athlete's first principle—to keep the system clean. He does not give his body a chance to absorb poisons. He not only takes his cold shower, after exercise, but he knows a cleansing of the intestines is important, and he takes occasionally a good regulator and liver cleanser, such as a dose of castor oil, or, what is much better, a tiny pill made up of May-apple, aloin and jalap, and sold by almost all druggists in the land as Dr. Pierce's Pleasant Pellets.

Keep the kidneys in good order also.

Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking "Anurie" (anti-uric-acid). This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headaches, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night. Take heed, before too late! Get Anurie (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package of "Anurie"

Chain of Imperial

Aerodromes

London.—Right Hon. Mr. Weir, at a public welcome to the crew of the R-34 at Glasgow, stated that he looked forward to the time when there would be a chain of imperial aerodromes linking the main units of the Empire and connected by auxiliary services to the smaller nations. He said that he had great faith in the usefulness of coastal flying boats, as proposed in connection with Australian and West Indian coastal services. Military reasons, he stated, required the linking up of the Empire by definite routes, largely coinciding with the commercial routes. He deprecated the government action in monopolizing civil aviation, and anticipated great results from the rivalry of private firms.

Sir Robert Home stated that the public had not yet realized the remarkable war work accomplished by the airships. The Admiralty had started with eight and finished with a hundred—beating the Germans.

One thousand six hundred wagon loads of mud and dirt are removed daily from the streets of London.

Yet the bunco man's game is only skin deep.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is of "Bayer Tablets of Aspirin" which like Sterling on silver. It positively identifies the only genuine Aspirin, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally, made in Canada. Tin boxes of 12 tablets cost but a few cents. Large "Bayer" packages. Always buy an unbroken package. There is only one Aspirin—"Bayer"—You must say "Bayer!" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

You Cannot Motor In Comfort Without Them

PATENT APPLIED FOR

ROYAL SIMPLEX WINDSHIELD WINGS

MOVABLE IN ALL DIRECTIONS THEY KEEP OUT DUST, WIND, RAIN, SLEET AND SNOW

Will also adjust to throw the air directly upon the occupants of the front seats and tonneau at will. The Royal Simplex Wings are handsewnly designed, and add a note of distinction to the finest automobile—and add class to the cheaper grade of cars. Can be clamped on any make of car in five minutes. The sale of the Royal Simplex Wings has been enormous since they were first put on the market in the United States.

Ladies need no Protection to their faces when riding in the front seat when the Car is FITTED WITH THESE WINGS

ROYAL SIMPLEX WINDSHIELD WINGS eliminate the draught for those in the front seat. In rainy weather it is not necessary to use side curtains for the front seat, thereby allowing the driver the same view of the road as in clear weather.

Strike In Britain A Serious Problem

London.—Though it would be premature to abandon hope of a settlement of the railway strike, the situation has disappointed the expectation of some arrangement resulting from the numerous conferences between the labor representatives and the government, and the position is again grave. James Henry Thomas, general secretary of the National Union of Railwaymen, announced that the efforts to re-open the negotiations had collapsed, owing to government refusal to go beyond its previous offer, but appended that other unions than the railwaymen were continuing their efforts at mediation, but, while the strike continued, the railroad men would do nothing to hinder mediation.

After a conference of the executive of the railwaymen and transport workers, Mr. Thomas issued a statement in which he said:

"Rumors of a settlement are incorrect. The negotiations have broken down, inasmuch as the government offer does not differ from that of September 26.

The government is increasing its organization to ensure service and under emergency powers have closed Regent's park to the public, and are using the park as a clearing centre for market produce, frozen meat and fish, in the same way that Hyde Park is being used for the distribution of milk.

Both the Prime Minister and Secretary Thomas issued statements, which were shown on every motion picture screen, setting forth briefly the respective attitudes of the government and the union.

The Premier declared that the government was not engaged in fighting trades unions, but to prevent an attack against the life of the community. Secretary Thomas declared that the railwaymen were not fighting the community, but against a conspiracy to lower wages.

Women of Archangel Are Buying Poison

Intend to Kill Themselves Rather Than Fall Into Hands of the Reds

Paris.—Chemist shops at Archangel are openly selling poison to many young women who are buying it with the expressed intention of killing themselves rather than fall into the hands of the Bolsheviks, according to a United States officer who has just arrived from Northern Russia.

While several shiploads of Bolsheviks have been deported from Archangel by entente powers the majority of the anti-Bolshevik population refuse to leave, saying it is impossible to go penniless into a strange country.

German Agent Sentenced

New York.—"Count" Max Lynar Louden, a former German agent, who included among his exploits a plot to kidnap President Wilson and invade Canada with 150,000 German revolutionists, was sentenced to three years in Sing Sing prison recently for attempted forgery. The "count" was recently released from the same prison where he has spent his time since April, 1916, serving an indeterminate sentence for bigamy.

British Occupy Odessa

Vienna.—Troops from the British fleet in the Black Sea have been landed in Odessa, and have occupied the city, according to advices received at Budapest.

Huge Stocks Held In Cold Storage

Winnipeg.—There is sufficient butter in cold storage in the warehouses of the Manitoba Cold Storage Company and the William Davies Company to take care of Manitoba's home consumption for nearly five months, reports filed by the managers of the two plants at a recent session of the Board of Commerce food probe revealed.

Gordon W. Shantz, general manager of the Manitoba Cold Storage Company, stated that there are in storage at present 1,367,000 pounds of butter. John MacPherson, manager of William Davies' plant, has 367,878 pounds of butter in storage, making a total of 1,734,878 pounds of butter stored in these two warehouses at present. Both managers declared that this was nothing out of

Notables Marked

For Assassination

Testimony Given By Former Military Attache of German Consulate

San Francisco, Cal.—Charles M. Schwab, Sir Cecil Spring-Rice, former British Ambassador to the United States; Lord Fisher, of the British Admiralty; the late Lord Kitchener, and the British vice-consulate at Ensenada, Mexico, were marked for assassination by agents of the German government, according to sworn testimony given by former First Lieutenant Wilhelm von Brincken, formerly military attache of the German consulate in San Francisco, to Commissioner of Immigration Henry M. White, of Seattle, Washington.

A transcript of the statement was received here by Attorney Henry M. Owens, von Brincken's legal adviser in San Francisco. Von Brincken is serving a two-year sentence in the federal penitentiary at McNeil's Island for the part he played in the so-called Hindu conspiracy case.

D'Annunzio Aids Regulars

Blockade of Fiume Is More Severe Than Formerly

Rome.—Orders closing the Jugo-Slav frontier have led to the chief of staff of the 26th Italian regiment army corps at Abbassia to interview Captain d'Annunzio's chief of staff and discuss measures to be taken. This has resulted in the sending of some of Captain d'Annunzio's volunteers to hold the armistice line according to the Epoca, which adds: "The event shows the cordial collaboration between the d'Annunzio troops and the regulars."

The correspondent of the Epoca says the blockade of Fiume is more severe than formerly, even mail being held at the frontier. There is food sufficient for three months for the population of Fiume.

Milk Advances In Toronto

Instead of 15 Tickets for a Dollar Consumer Will Receive Only 13

Toronto.—Under the order of the Board of Commerce, the price of milk will be increased here. Instead of 15 tickets for \$1, the consumers will now receive 13 tickets for the same sum, which means an advance of a cent per pint.

The board permitted an increase to the farmer of 45 cents a can, which, upon the basis of consumption of 6,000 cans per day, means an increased income to the farmers of \$2,700 a day, or \$985,000 per year.

Kolchak's Appeal

Omsk.—Coincident with the issuance of a decree calling for the convening of a Zemstov congress, Admiral Kolchak, head of the all-Russian government, made an appeal to the population to drop party struggles and unite around the government.

Custom Receipts

Ottawa.—Customs receipts for the six months of the fiscal year ending September 30 totalled \$82,269,212, an increase over the same period last year of \$256,323. For the month of September alone receipts totalled \$14,833,240, which was \$2,756,729 greater than in September, 1918.

U. S. Tour May Be Cancelled

Stated That British Government Desires That Prince of Wales Return After Washington Visit

New York.—An Associated Press dispatch from Washington says: "The Prince of Wales, who is now touring Canada, will come to Washington in about a month for a visit of three days, but he will not make a tour of the United States, Mayor Babcock, of Pittsburgh, has just been informed by Chairman Porter, of the Public Foreign Affairs Committee."

"I am reliably informed," said Mr. Porter, "that it is the wish of the British Government that the Prince of Wales, upon leaving Canada, should spend but three days in Washington, returning to New York thereafter, from whence he sails for Europe, and that a tour of the United States should not be made."

Marshal Foch Approved

Armistice Conditions Were Examined By Allied Commander Before Presentation

Paris.—During a recent session of the Chamber of Deputies, M. Ybarre-garay asked if Marshal Foch had approved of the date and conditions of the armistice. The Petit Parisien publishes the text of a letter through which the Marshal made known his preparations, and declares that these conditions were examined in the presence of the commander-in-chief at Versailles on November 1 and November 4 last. The newspaper says the Marshal made no objection to the conclusion of the armistice, and that the conditions which were presented to Mathias Erzberger, chairman of the German armistice commission, were the very ones he proposed.

Hun Activities In Baltic

Germany's Recall of General Von Der Goltz Will Not Satisfy Supreme Council

Paris.—Germany's recall of General von der Goltz from the Baltic region will not satisfy the Supreme Council, it is asserted, the Council being determined to place economic pressure on Germany until all German soldiers are withdrawn from the Baltic.

While it cannot be said that a blockade is actually on, steps are being taken to bring about financial pressure which will speedily cut off the German food supply and bring the German public to a realization of the fact that German activities in the Baltic states must cease.

Mail Robbery Arrests

Minneapolis.—Two men, giving their names as Edwin Gabriel and George Thompson, carrying two suitcases containing \$1,000 in silver, were arrested on a passenger train here by detectives, who became suspicious of their actions. Believing that the men may be implicated in the recent robbery of the Montreal express near Levis, when a large quantity of silver was taken, the local authorities wired the police at Montreal and railroad officials. The men will be held without charge until the Dominion authorities are heard from.

May Prosecute Sugar Profiters

Winnipeg.—Prosecution by the attorney-general's department of retailers overcharging on sugar will probably be commenced very shortly, according to an announcement made here.

W. R. Cottingham, deputy assistant attorney-general, stated that a letter warning retailers against infringements of the sugar orders is being sent to the Retail Merchants' Association, and any violations will be immediately taken up by the department.

French Elections

Paris.—It is reported that the government is preparing a bill, under which December 1 will be fixed as the date for the expiration of the authority of the Chamber of Deputies, and November 9 as the date for the parliamentary elections, which are to precede all other elections.

Australian War Gratuity Proposed

Melbourne, Australia.—It is understood that the Commonwealth government is considering a proposal to pay a war gratuity to all members of the Australian expeditionary force, involving the expenditure of some \$25,000,000.

Fatal Riot in Berlin

Berlin.—Soldiers during a labor demonstration by 15,000 persons, in the Mueller Strasse, fired into the crowd, killing one civilian and wounding ten others.

Clothing Is Next On Price List

Retailers Will Be Called To Give Evidence

Toronto.—Another sitting of the Board of Commerce will be held here when Judge Robson, chairman, W. F. O'Connor, vice-chairman, and F. A. Acland, deputy minister of labor, will be the commissioners present. The probe will embrace the retailers' end of the high price of wearing apparel. Retailers will be called to give evidence, and the costs will be worked back to the manufacturer to see where the great spread comes in the prices of all textiles at the present time.

The sitting of the court promises further interest in the fact that the "big five" packers will be on hand to fight to the last ditch the order bringing down the price of wholesale pork products.

Cheap Lignite Coal

Briquet Industry In Southeastern Saskatchewan Would Be Paying Concern

Winnipeg.—That the last problem in the manufacture of briquets in the lignite fields of southeastern Saskatchewan and Southwestern Manitoba had been solved, and the last doubt as to the feasibility of the plan had been removed, was the statement of Hon. T. H. Johnson, attorney-general. Mr. Johnson stated that on his recent trip to Ottawa he had been shown over the experimental plant of the lignite utilisation commission at Ottawa. The commission, said Mr. Johnson, was proceeding with the plans for erecting a plant which would produce briquets on a paying basis, and will prove the industry to be a good profit-making business enterprise. These briquets, he said, would be placed on the market in the fall of 1920, and would sell for approximately \$10 per ton. They were in every way equal to the American anthracite coal. The commission is being financed by the Federal Government and the Provincial Governments of Manitoba and Saskatchewan.

Politics In Luxembourg

Retention of Grand Duchess Charlotte Is Now Quite Certain

Luxembourg.—Balloting in favor of the retention of Grand Duchess Charlotte as ruler, and of the establishment of an economic alliance with France instead of with Belgium, continued to show overwhelming majorities at the start of the second day's count of votes cast in the Plebiscite to determine the future of the Grand Duchy.

The French economic alliance continued to lead in favor by a vote of about 3 to 1. In the count of 14,000 votes, 11,132 were recorded for the republic; 10,071 votes were recorded for an economic alliance with France, and 3,130 for Belgium.

Probably 80,000 votes were cast in all, but 40,000 electors did not vote. Those not voting included the Socialists, whose party ordered abstention. The Socialists claim nearly one-fifth of the electorate.

Hawaiian Volcano Active

Thirty-Mile Stream of Lava Pours Into the Sea

Hilo, Hawaii.—A stream of lava from 800 feet to one mile wide and 30 miles long is pouring from the 13,000-foot crater of the volcano Mauna Lao, across the island from this city, into the sea.

The lava overtopped the crater, and reached the sea nearly 12 hours ahead of the time it had been expected to do so. The eruption of Mauna Lao began four days ago and subsided in violence after a brief duration, only to break forth with new force again. Two ranch homes and other valuable property have been destroyed by the molten rock.

To Change Name of R.N.W.M.P.

Ottawa.—The Northwest Mounted Police is to change its name. In the House Mr. Rowell presented a Bill to amalgamate the Northwest Mounted Police with the Dominion police, to constitute one federal police force. The name of the Northwest Mounted Police will be changed to that of the Royal Canadian Mounted Police.

Good Roads Construction

Winnipeg.—Authorisation for the construction of 277 miles of roads, under the Good Roads Board, is announced. The approximate cost is \$676,000. This brings the total mileage up to 3,758 at a cost of about \$8,219,000, borne equally by the province and municipalities.

Rumanians Seize German Plane

Manned By Four Officers Who Resented Their Arrest

Geneva.—Rumanian troops have seized a big German biplane carrying 300,000,000 paper rubles and a miniature but complete printing press at Hotin, Bessarabia, according to the Rumanian bureau at Berne. The plane, which was en route to Moscow, was forced to land at Hotin because of a leak in the gasoline tank. It was manned by four German officers, who are said to have resented their arrest. The rubles were all said to have been new notes.

Russian General Must Apologize

For the Arrest of Two United States Officers

Vladivostok.—Maj.-Gen. Graves, commander of the United States forces in Siberia, has demanded an apology from General Rozanoff, in command of Russian troops in Priamur province, for the arrest of two United States officers, Captain L. P. Johns and Corporal Benjamin Speerling, and the flogging of the latter by Cossacks commanded by General Kalminkoff. An investigation of the conduct of a Japanese officer at Iman, the place where the arrests took place, has also been begun by the Japanese high command. The incident, which occurred September 5, is considered one of the most serious to occur since the allies landed in Siberia. The men were arrested by a detachment of Cossacks, who claimed the Americans were not provided with identification papers.

May Flame Into War

Italian Situation Becoming More of an International Question

Paris.—The inflamed conditions in the Adriatic region and the dissolution of the Italian parliament for the holding of a general election on November 16, as Rome dispatches have announced, is giving the supreme council much concern, in view of the possibility of all the Balkans becoming involved in the turmoil. In peace conference circles the approaching Italian elections are regarded as a struggle between the war and peace parties, or rather between the forces on the military side and those of socialistic and pacific tendencies, while it appears that d'Annunzio and Fiume would be an issue. The feeling is growing in Paris that as d'Annunzio has indicated that his aspirations include far more than Fiume, the Italian situation is daily becoming more of an international question.

The view is expressed here that the agitation might flame into war any day, if, for instance, a Jugo-Slav should happen to be killed by Italian troops.

U. S. Shipyards Tied Up Now

About 60,000 Men in Grip of Great Industrial Struggle

San Francisco.—Involving approximately 60,000 men, including both skilled and unskilled labor, San Francisco, Oakland and Alameda are in the grip of industrial disturbances which have greatly hampered industry in the entire San Francisco Bay district. Shipyards and iron trades workers, tailors, stevedores, taxi drivers, clerks, street railway employees, ferry boat employees and river steamer men are affected.

The most serious development in the labor situation came when 25,000 shipyard and iron trades workers in Oakland and Alameda, and 30,000 in San Francisco, struck. The shipyard and iron workers went out in an effort to force the payment of a wage increase of eight cents per hour.

Union officials say the tie-up of the shipyards is complete. No statement was forthcoming from the California Metal Trades Association.

Fire Wipes Out Town

St. John, N.B.—Oromocto, picturesque and thriving town of Sunbury County, was almost totally destroyed by fire with a property loss of at least \$500,000. Fire started in the River Valley's lumber company saw mill, and mill, offices and yards, with about 4,000,000 feet of lumber, were destroyed, together with five stores and several dwelling houses, the lumber company's loss being \$200,000.

Spanish Villages Flooded

Madrid.—Carcagneante and Liria, villages in the province of Valencia, are reported to have been inundated by floods. The damage is reported heavy.

Adriatic Question Must Be Cleared

French Government Approves International Show

Planned to Bring Producers and Buyers Together

Paris.—An immense project of erecting a huge building on the banks of the Seine in Paris, in which will be held a permanent exhibition designed to bring together the producers and buyers of the world, has found the support of a French financial corporation. The object is to promote commercial intercourse between allied and friendly nations. The building, which will be constructed by the Quai de Passy, will probably cost \$20,000,000. There will be held a continuous world's fair. The proposition has the approval of the French authorities. Twelve and a half acres of land have been secured as a site. The structure will have a frontage of 845 feet and a depth of 600 feet. The floor surface will be nearly two and a half million square feet.

Bela Kun Not Wanted

Boshevik Agitator Has to Be Transferred to Avoid Violence By Populace

Milan.—Bela Kun, who was interned by the Austrian Government at Heidenhul, near Raab, had to be transferred. The inhabitants of the neighboring villages, chiefly peasants, were so exasperated at the presence of the notorious Hungarian Bolshevik director that they held a meeting of protest and threatened to commit violence. The Austrian Peasants' League and the officials of the district also made representations at Vienna, and the government considered it wise to remove the objectionable prisoner. Bela Kun was, without warning, transferred to another habitat, and the locality is kept secret to avoid similar protests.

Sugar Rationing Suggested

Shortage at Calgary Is Acute, and This Idea Is Put Forward

Calgary.—The adoption of the sugar card rationing system used in Britain was advocated here as a solution of the sugar shortage which has become acute, when one of the local dealers at the price probe now being carried on stated that he believed this would be the only possible way of guaranteeing an equitable distribution of what sugar was coming into the city. Some of the wholesalers admitted having received good shipments of sugar. The probe into the sugar situation will conclude here October 2, when other lines of business will be taken up.

Negro Attacks White Woman

Omaha.—Mrs. W. G. Wismer, a white woman, was attacked by a negro in the rear of her home. The negro escaped.

The Wismer home is in the heart of Omaha's "black belt," which is under control of military authorities under the command of Major-General Leonard Wood.

Wooden Man to Go

Berlin.—The great wooden von Hindenburg monument, which during the war was studied by the populace with nails, representing so much money, will be demolished, according to the Vossische Zeitung.

Washington.—To allow Italy's claim to Fiume, solely on the basis of its forcible occupation by d'Annunzio's irregular troops, in the opinion of members of the supreme council in Paris, would involve recognition by the entente of Rumania's claims in Hungary; Greece's claims to large portions of Turkey, and even possibly Germany's claim to rich portions of Western Russia. It is felt that admission by the council of the right of any nation to seize territory regardless of pledges to refrain from aggression, would be regarded as tantamount to an abandonment of the basic principles upon which the peace conference was assembled and as threatening a permanent peace.

Plans already are being considered, it became known here, to apply strong pressure to bringing about a termination of the dispute over the Adriatic question, as well as in other cases where trouble has arisen jeopardizing the authority of the supreme council and threatening to set at naught its decisions founded upon powers conferred by the armistice and peace treaty.

Recent advices from Europe are regarded as indicating that some of the entente governments themselves or their representatives, have not fully sustained the council in decisions in which they participated. Unless the Adriatic question is settled satisfactorily within a few days, and there is no disposition to add to the embarrassment of the Italian government if it indicates an intention of taking the Fiume situation in hand, the United States government may consider the advisability of withdrawing for the present at least, any further financial or other material assistance to the other powers unless the council decisions are carried out.

Strike Levels Social Distinction

Aristocrats Load Freight, Drive Engines and Handle Fish

London.—Social lines, which might in the past have been rigidly held in England, have broken down for the time being at least, as a result of the railroad strike. A duke was seen driving a motor lorry through the streets, while an earl was in the chauffeur's seat on the motor heading a convoy of fish from Billingsgate. The sixth earl of Port Arlington was among those whose names are found in the social register who were engaged in unloading perishable goods, milk and churns from a train. Frederick Henry Smith, son and heir of Baron Colwyn, was the fireman on the Liverpool-London express when it rolled into this city.

H.B. Railway Is Slowly Decaying

The Pas, Man.—The elements and neglect are slowly crumbling the terminals of the Hudson's Bay railway at Port Nelson, according to Captain R. H. Taylor, of the mounted police patrol boat, who has just arrived here from the bay. He declared that the roadbed of the railway itself from Mile 214 is rapidly going to pieces, and all along telegraph poles are lying on the ground. The terminal shops, he said, are lying in a state of rust and decay.

Some women are unable to appreciate a gentleman at any stage of the game.

Labor Troubles Due To Russ. Bolsheviks

Too Much Canadian Bacon

So Plentiful That It Is Being Sold To Soapmakers in England

Montreal.—The Herald quotes a man who has just returned from Liverpool as claiming that unrequited Canadian bacon was sent to the soap factories in England. "Canadian bacon is a drug on the market in England," says the Herald's informant. "When I was at Liverpool 2,000 cases of Canadian bacon were going bad on the wharves there. It was sold to Lever Bros. to melt down to soap. Cases of Canadian bacon of 500-pound lot cases sold for 1s 2d each, or 28 cents for 500 pounds."

Hunger is sure to come to those who sit down and wait.

St. Louis, Mo.—Warning that if Germany is permitted to continue her "nefarious operations" in Russia, in ten years she would become as powerful as before the war, David R. Francis, American ambassador to Russia, talking before the convention of the American Bankers' Association, said the real solution of industrial unrest in Russia and the United States is in the peace treaty. He urged immediate ratification of the League of Nations.

He charged that the Brest-Litovsk treaty was arranged by Lenin with Germany, and that Lenin and Trotsky were German agents. Labor troubles all over the world emanated from Russia, he said, and said it was impossible to establish peace in Europe while the Bolsheviks reigned in Russia.

The Busy Store

Business Increasing

Our business having almost doubled the past two weeks, we have been too busy to spend much time writing ads.

Following is only a few of our new arrivals and specials:

A splendid line of all-wool serges, guaranteed fast colors at \$2.00 to \$4.00

A large shipment of real Hudson's Bay all-wool blankets. Call and get our prices before buying.

New Dresden Ribbon for fancy work.

A very nice assortment of silks just unpacked.

Last week for preserving fruit

Grocery Department

At all times we have the most complete and fresh stock of groceries in town.

This is the last week for preserving fruit. Our supply will be in on Thursday. Note that our prices and quality on fruit are always a shade the best to be found in the burg.

QUEENSTOWN

BY JOHN GLAMBACK

The Queenstown Farmers Union and new U.F.W.A. women's local, meet in the Milo Hall at 5 o'clock this Saturday evening in each month.

Mr. Osterwall, director of the University Extension, will appear in the Milo Hall some Friday evening in October to put on moving pictures of educational value. The date will be announced later.

Going to Cluny last Wednesday I saw the almost endless stream of grain haulers. I counted 14 four-horse, 10 six-horse and 2 eight-horse teams and I did not see them all. It looks as though some grain is grown in this district.

Milo Munroe went to Calgary to see the Prince and while standing in front of the Palliser Hotel was relieved of his pocket book containing \$175. Calgary is becoming a hot place for pick-pocket and the Queenstown farmers better leave their "dough to him".

The display of vegetables shown by the children at the School Fair was certainly an eye-opener, especially when one considers that this has been a dry year. The children feel very enthusiastic about it and are already talking about what they will do next year.

Arrangements are now being made by the Queenstown farmers to give the returned soldiers of this district a royal welcome. November 7th will be the date. The ladies will be asked to bring the eat, in the form of a chicken supper. A speaker will be secured if possible, good music and a fine time will be given the returned boys.

Land is changing hands here and prices are not coming down any. L. Aargard sold his farm of 800 acre last week to Mr. Money from Three Rivers, Mich. for \$75.00 an acre.

J. J. Aargard has rented his holdings of a couple of sections, to Messrs. Henry and Ole Olson.

John L. Eke has rented his farm to Clarence Unshiehl.

Joe McCabe has rented the half section on 21-19-21 to W. Stalgan Dulch.

Some of the Calgary business men appear to have a rather mistaken idea about our district and, either knowingly or unknowingly, are knocking it in great style. Last week a couple of Michigan farmers, who came here with the intention of buying land on the advice of John L. A., what presents living in Michigan, were in Calgary. On inquiring of the Calgary business men about the best place for farming and of Queenstown in particular, they were warned not to come here as we had been tried out for three years in succession and could not even raise chicken feed.

The district is represented as being absolutely no good.

As the two farmers had some confidence in Mr. Ash they decided to see for themselves and they were so favorably impressed with the looks of things that they bought 800 acres at \$75 per acre.

While things turned out all right in this case, no doubt, most any other landowner arriving at Calgary and being told the same story would keep shy of Queenstown.

It is true, the same as all South-western Alberta, we have passed through two rather dry years and that our crops were light, but, it is also true, that the same farmer had the single red crop failure during the twelve years I have lived here. This year wheat will average about ten bushels to the acre and we are well prepared for the next year.

It is true, the same as all South-western Alberta, we have passed through two rather dry years and that our crops were light, but, it is also true, that the same farmer had the single red crop failure during the twelve years I have lived here.
